FORCE LIST – BLUE

(Constructive- For Workshop Purposes Only)

This is a notional listing of forces for use in the game, not a definitive Task Organization. Due to the nature and objectives of the game the Force List provides greater detail and emphasis on U.S. Naval forces than on other elements. Specific Special Operations, Air Force, and Coalition assets will be identified only as required to provide context for combined and joint interaction with the naval forces conducting distributed operations.

Cooperating Forces

The armed forces of these nations will be operating in the region. While they will not be acting in concert with U.S. forces, their proximity will require the CJTF to coordinate with them. Opportunities for coordination outside the parameters of the ongoing campaign may also arise.
